

to whom it may concern first i would like to say is that i am an over the road truck driver.
i am also a paid subscriber to xm radio. i enjoy it very much. it has such a wide variety of entertainment. but that is not all. the weather and traffic channels help quiet considerably when i am driving from city to city. i can find out what the weather and traffic info is before i get there so i can plan my trip accordingly. and the up to date info is something that i can not get on regular radio. so xm help me quiet a bit in my day to day travels. and i ask that you reject the petition 04-160.

thank you
